Mr. Mike Pinson

Dear Mr. Pinson,

In response to our phone conversation on October 24, 1988, concerning the removal of one underground tank located at 9215 Riverview Drive, in St Louis, Missouri

The fire marshall examined the area of excavation and gave us a permit to remove the tank. If there had been any contamination, he would have said something to us and he would also have called the city health department. Neither of these two items were done.

After talking to the fire marshall this morning, he assured me that there was no problem with the backfill.

Sincerely,
THE KIESEL COMPANY
